Steamgears Prints

Gemini-prompter til realistiske plakater · 14. november 2026 · 18 motiver

Sådan bruger du dem i Gemini

1. Åbn gemini.google.com, og vælg billedgenerering (Pro).
2. Kopiér hele den grå boks for ét motiv, inklusive stil-linjen nederst, og send den.
3. Bed om 3–4 varianter: skriv *"Lav tre varianter mere af samme motiv"*.
4. Vælg den bedste, og skriv *"Lav den i højeste opløsning, stående format 5:7"*.
5. Download billedet, og navngiv det som angivet under hver prompt.

Gode råd

- **Samme kvinde i R1–R3:** lav R1 først. Vedhæft derefter det bedste R1-billede, når du sender R2 og R3, og skriv *"Brug samme kvinde som på billedet"*.
- **Ingen tekst i billedet:** titler sætter vi bagefter i Steamgears-typografien. Kommer der alligevel bogstaver med, så skriv *"Fjern al tekst"*.
- **Tom bund:** den nederste femtedel skal være rolig, så titlen kan stå der. Ellers skriv *"Gør bunden mere rolig og mørk"*.
- **Opløsning:** til 50×70 skal billedet helst være mindst 3.000 px på højkanten. Vi opskalerer til trykfilen bagefter.
- **Hold det pænt:** alle personer er fuldt påklædte og uden udfordrende positurer, så motiverne kan sælges overalt (se planens regler for pin-up).
- **Ophavsret:** skriv aldrig "i stil med" en navngiven kunstner, film eller et spil.

Den realistiske serie: luftskibspiraten

R1 Luftskibspiraten ved roret

Hovedmotiv. Lav dette først, og brug det bedste billede som reference for hende i R2–R3.

```
A confident, beautiful woman airship pirate captain in her thirties stands at a large brass-and-mahogany ship's wheel on the open deck of a steampunk airship, one hand resting on the wheel, gazing out toward the horizon. She wears a fitted dark-red leather long coat with brass buttons, a high-collared cream blouse, a leather corset vest over it, a wide belt with a brass compass and a holstered flintlock pistol, tall boots, and a tricorn hat with aviator goggles on the brim. Wind in her long auburn hair. Behind her a huge copper-plated balloon envelope, ropes and rigging, spinning propellers. Beyond, a sea of clouds lit by a setting sun, distant airships silhouetted on the horizon. Heroic, adventurous mood, three-quarter view from slightly below. Fully clothed, tasteful.

Style: cinematic, realistic digital painting, warm golden-hour light, brass and copper tones with teal shadows, volumetric light, rich detail, sharp focus. Portrait orientation 5:7. Keep the bottom fifth calm and empty for a title. No text, no letters, no logos, no watermark.
